Re: 2005/2006 U.S.-China Air Services Case and Designations  
(OST-2004-19077) -71

Dear Secretary Mineta:

As a Continental employee, I am writing to urge you to award new route rights (a designation and related frequencies) to Continental Airlines so that Continental may begin service between New York/Newark and China. Service to China is crucial to Continental's plans and a vitally important part of Continental's network.

Increased Continental service at Newark Airport is not only crucial to Continental's plans, but is also an important factor in improving the economy of the entire New York/New Jersey metropolitan area and cities around the country. As there is currently no U.S. carrier service between this region and China, thousands of passengers, shippers, and businesses will benefit from this new service.

No other application before the Department holds as much benefit to the flying public as Continental's proposal to operate daily China service. As the largest airline in the New York area and the only carrier that serves both Tokyo and Hong Kong nonstop from the region, Continental is in the unique position of being able to provide consumers effective competition in the crucial China market.

The Department's decision should be an easy one. Continental must be immediately awarded new China rights and I again urge you to provide my airline this crucial opportunity.

Thank you for your consideration.

Sincerely,

Handwritten signature of Barbara Kaplan in cursive script.
